Privatization Brings New Shareholders, New Valuations

- ❑ In 4Q 2023 First Pacific and other investors delisted MPIC at a valuation of \$2,963.2 million
- ❑ This valuation continues to be used by First Pacific (see below right, [page 4](#), and [pages 28-29](#)) in its calculation of the Company's net asset value
- ❑ Analysts at CLSA valued First Pacific's stake in MPIC at \$2,673.1 million, or at HK\$4.90 per First Pacific share in a 6 November 2024 research note, 56 HK cents higher than the then-share price of 142.HK
- ❑ First Pacific's economic interest in Meralco (23.7%) is approximately equal to First Pacific's market capitalization as of mid-November 2024
- ❑ In MPIC's final year as a listed company, a total of six analysts estimated sum-of-the-parts valuations, producing an average GAV of \$6,275 million – more than double the valuation paid at privatization
- ❑ MPIC shareholders include First Pacific, GT Capital (a Philippine holding company invested in MPIC since 2015), GSIS (a Philippine government pension fund), Mit-Pacific (a Japanese government-Mitsui joint venture), the Management Investment Group (led by First Pacific CEO Manuel V. Pangilinan), and others

Looking Ahead, Toll Roads & Water Are in Focus

- ❑ Maynilad, the largest water utility in the Philippines by number of customers and 52.8% owned by MPIC, must be listed by 21 January 2027 under its franchise from the Philippine Congress
- ❑ MPTC, the 93.3%-owned largest non-government toll road operator in Southeast Asia, is expected to see partial monetization in a similar time frame via share sale or public offering to bring in new capital
- ❑ CLSA's 6 November 2024 research note put a value of \$1,854 million on the MPTC toll road business (First Pacific economic interest: 46.6%), basing its numbers on a swap of MPIC shares for MPTC shares ([page 18](#)) in a transaction expected to close before end-2024*

*Note: Shareholdings portrayed at above left are a result of Mit-Pacific's share swap expected to close before end-2024.

- Service revenues[#] rose 4% to a **record high** ₱155.0 billion led by Individual mobile business and Enterprise data services business
- EBITDA* rose 3% to a **record high** ₱80.7 billion vs. ₱78.3 billion on stronger service revenues
- 3Q 2024 was the **8th successive second quarter to deliver Y-o-Y growth**
- EBITDA margin flat at 52%
- Telco core profit rose 2% to ₱26.6 billion vs. ₱26.1 billion on higher EBITDA, offset in part by higher financing costs and depreciation
- Net debt/EBITDA at 2.44x vs. 2.30x at end-2023 with investment grade rating and pre-tax interest cost of 5.0% and average debt life of 6.71 years
- Maya fintech unit cut losses with PLDT share down to ₱900 million vs. ₱1.7 billion

Outlook

- Service revenues and EBITDA seen reaching consecutive **record highs** in 2024 on mid-single-digit growth
- 2024 full-year telco core profit seen at least ₱35 billion
- 2024 capex seen in range ₱75-78 billion vs. ₱85.1 billion in 2023
- Aiming to bring net debt/EBITDA to below 2.0x via higher revenues, cost cuts, and sale of non-strategic assets
- Dividend policy: 60% of core profit

Individual Business Sees Data Surge

- 9M 2024 Individual service revenues rose 2% to ₱62.1 billion vs. ₱60.6 billion on 5% ARPU growth and increase in number of active data users
- Mobile data revenues rose 5% to ₱55.2 billion in 9M 2024, totaling 89% of all Individual service revenues
- Monthly mobile data consumption averaged 11.6 GB per subscriber, up 7% from 10.8 GB average in 9M 2023
- Active data users up 6% to 41.2 million customers vs. end-2023 figure of 39.0 million

Home Fiber Continues Strong

- 9M 2024 Home service revenues were little changed at ₱45.2 billion while churn rate improved to 1.7% from 1.9%
- Fiber revenues rose 6% to ₱41.7 billion, making up 92% of all Home revenues, up from 88% in full-year 2023
- Now deploying next-generation technology to offer customers Gigabit fiber (1-10Gbps)
- Fixed wireless revenues rose 4% quarter on quarter and fiber-to-the-home ARPU was flat at ₱1,496

Enterprise Business Banks on Racks

- 9M 2024 Enterprise service revenues rose 4% to ₱36.1 billion, driven by growth in A2P and IOT services
- Data center racks in service rose 14% to 5,700 from a year earlier, extending PLDT's lead as operator of the largest data center portfolio in the Philippines: 10 data centers with an 11th data center energized in July 2024 to provide world-class facilities for hyperscaler clients
- Corporate data/ICT revenues rose 6% with 10% increase in ICT revenues to ₱2.8 billion on strong growth in managed IT services, cybersecurity solutions, data center colocation and cloud services

Capex Spending Down After Leadership Secured

- 2024 capex target of ₱75-78 billion continues drive down from capex peak in 2022, and includes new capex commitments and continued delivery of earlier commitments
- 2024 capex spending aims to drive revenue growth and support a continuing rise in network traffic
- PLDT capex to finance increase in home broadband ports
- Smart capex to increase cell sites and upgrade base stations to LTE and 5G services
- Total capex for past 10 years of ₱635.2 billion has built a strong foundation for continuing earnings growth
- Strategy to reduce annual capex and capex intensity to help achieve positive free cash flow

Investment Grade Ratings From Moody's and S&P

- Investment grade ratings: S&P (BBB), Moody's (Baa2)
- Gross debt at ₱272.6 billion, net debt at ₱259.8 billion
- Net debt to EBITDA* ratio at 2.44x vs. 2.30x at end-2023
- Major cash flows in 9M 2024 include proceeds of ₱3.0 billion from closed tower sales covering 247 towers, bringing total tower sale proceeds to ₱86.0 billion or 87% of expected total proceeds
- USD debt down to 14% of the total vs. 16% at end-2023
- "Natural hedge" from 15% of consolidated revenues which are dollar-linked or dollar-denominated
- Just 5% of borrowings or US\$250 million is unhedged
- 42% are fixed rate loans, while 58% are floating rate loans
- Average interest cost (pre-tax): 5.00% vs. 4.58% in 2023
- Average life of debt is 6.71 years, 57% maturing after 2030

*All EBITDA data are ex-manpower reduction program costs and telecom tower sale and leaseback expenses.

1H 2024 Highlights Show Record Highs

- Revenue declined 28% to S\$1,062.0 million vs. S\$1,470.6 million on lower selling prices following stabilization of the domestic power market
- EBITDA fell 25% to \$203.0 million vs. S\$268.9 million
- Core profit declined 31% to S\$148.7 million vs. S\$216.5 million on lower blended non-fuel margins
- Electricity sales were flat at 2,875 GWh vs. 2,893 GWh
- Net debt at S\$57.3 million at end-June, down 21% from S\$72.6 million at end-2023
- PLP had a market share of 9.2% with 94% of electricity sold in vesting contracts and contracted sales

Outlook

- PLP is expecting continuing strong performance from its 830MW LNG power plant in 2024 riding on the back of secured contract margins from retail customers, albeit with reduced margins from 2023 levels
- Looking ahead, PLP is evaluating participation in domestic solar and natural gas power projects

600MW Solar Project Wins Conditional Approval

- Singapore's EMA has granted conditional approval to a [project](#) to produce and export 600 megawatts of solar-generated electricity to Singapore from Indonesia's Bulan Island
- The project joins First Pacific, Meralco PowerGen, Medco Power Global, and Gallant Venture
- The project will install over 2,000MWp of solar PV base load and 500MW of battery storage over 1,700 Ha and is expected to be completed by 2028
- A marine survey for the high voltage subsea power cables is part of the next phase in the project

..... Subsea power cable for illustration only; not a planned route.

9M 2024 Financial Highlights

- Operating revenues were flat at ₱6.6 billion on lower volume milled and lower grades, offset by higher metal prices
- EBITDA fell 7% to to ₱1,418 million vs. ₱1,525 million on higher cash production costs offset in part by improved metal prices
- Core profit fell 29% to ₱610 million vs. ₱864 million a year earlier on lower production and grades and higher production costs
- Cash production costs rose 10% to ₱817/ton vs. ₱740/ton largely on sharply higher materials and supplies costs
- The realized copper price rose 18% to \$4.52 per lb. vs. \$3.83/lb
- The realized gold price rose 10% to \$2,115 vs. \$1,921 per oz.

Mineable Reserves at Boyongan Ore Deposit

- The Silangan Project is located in Surigao del Norte in northeastern Mindanao near proved deposits of copper (Cu) and gold (Au)
- The Boyongan Ore Deposit at Silangan will be mined using sub-level cave mining
- Mining will commence at Level 1 to access higher grade ore
- The existing decline for ventilation and safety, dewatering, and installation of additional rock supports is included in the In-Phase Mine Plan capital cost
- East Boyongan is prioritized because of higher grades and proximity to the access decline
- Silangan’s deposits are composed of copper and gold oxide minerals and copper and gold sulfide minerals
- Copper and gold in oxide minerals are recovered best using the leaching process
- Copper and gold in sulfide minerals are recovered using the flotation process
- The Silangan Project will employ both leaching (years 1-28) and flotation (years 9-28)
- Funding for Phase 1 is complete while financing for Phase 2 will be launched in later years following the launch of Phase 1 commercial operations in 2026
- Phase 1 has a projected mine life expectancy of 28 years

Outlook

- Commissioning and testing at Silangan Mine seen beginning ahead of commercial underground mining operations in 2026
- The mine life of Padcal has been extended to end-2027
- The extension allows further time for development of the resource-rich Silangan Mine Project (details below)
- Measured and indicated ore grades at Silangan’s Boyongan and Bayugo deposits are more than double the concentration seen at the currently operating Padcal mine
- Ongoing exploration activities include exploratory drilling at sites adjacent to the Padcal Mine and other sites in the Philippines

*Boyongan and Bayugo mineral reserve equivalent at 0.5% Cu Eq cut-off grade. Cut-off grade is the grade of the ore where the estimated revenue from the metals equals the estimated cost to produce it. Cut-off grade in Silangan is expressed as copper equivalent (CuEq) which is the grade of copper plus the equivalent copper grade of gold.

How to Value MPIC?

- First Pacific values its 46.3% of MPIC at its privatization valuation
- CLSA uses the market price for MPIC's listed asset Meralco and trailing P/E for most of the remaining assets
- CLSA valued the toll roads business MPTC at \$1,854 million in a 6 November 2024 research note
- First Pacific's economic interest in MPTC is approximately 47%

First Pacific Conservatively Values its Assets, Using Market, Book & Privatization Values

- First Pacific values its listed assets at market prices with management receiving daily NAV reports after markets close
- Unlisted assets (PacificLight Power and MPIC) are valued differently:
 - PacificLight Power is valued at book – the price First Pacific paid when buying it in 2013
 - First Pacific values its current 46.3% stake in MPIC at the \$1,354.5 million pro rata valuation of MPIC in its privatization exercise in 4Q 2023, as shown in the first column and contributing to a NAV per share of HK\$7.77 at end-September
- Equity analysts have a different view:
 - In a 6 November 2024 report, CLSA uses a look-through valuation to arrive at an implied value for First Pacific's stake in MPIC of \$2,673.1 million, implying an increase in First Pacific's NAV per share to HK\$10.21 at end-September
